

WRAPEX® XTREME33 MACHINE STRETCH FILM

**THE LATEST
INNOVATION
IN STRETCH FILM
TECHNOLOGY**

Xtreme Stretch

Less Waste, Reduces Costs

Extremely Thin,
Incredibly Tough

Tear & Puncture Resistant

Load Stability

Exceptional Clarity

Wrapex® Xtreme33 is made up of 33 nano-layers: extremely thin, but incredibly tough! Featuring high elongation and tensile strength, this film has been engineered to be highly resistant to tears and punctures and offers excellent load stability - ensuring the safe arrival of your goods.

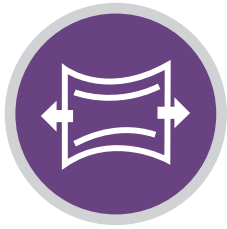

Wrapex® Xtreme33 high yield, high performance machine films can be stretched over 400% (1m can be stretched to 5m) - significantly reducing the amount of film required to wrap your pallets and resulting in huge savings in pallet wrapping costs.

BENEFITS & FEATURES:

XTREME STRETCH

High-yield, high-performance machine film that can be stretched over 400%. 1M - 5M.

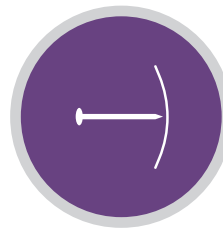

LESS WASTE, REDUCES COSTS

Reduce plastic wastage and save by using thinner films!

EXTREMELY THIN, INCREDIBLY TOUGH

Made up of 33 nano-layers, making it extremely thin but incredibly tough!

TEAR & PUNCTURE RESISTANT

High resistant to tears, even around sharp cartons and pallet corners.

LOAD STABILITY

Excellent membrane memory keeps pallets safe and tight during transport.

EXCEPTIONAL CLARITY

High transparent film for easy scanning and product identification.

SPECIFICATIONS:

WRAPEX® XTREME33 MACHINE STRETCH FILM

Code	Specifications	Carton Qty	Pallet Qty
33612	500mm x 2720m, 12µm, Clear	1 Roll	50 Rolls
33615	500mm x 2175m, 15µm, Clear	1 Roll	50 Rolls
33617	500mm x 1920m, 17µm, Clear	1 Roll	50 Rolls

"Since switching to Wrapex® our non-conformances from grocery chain customers have dropped considerably. Complaints from the storemen about breakages, adhesion and film noise when wrapping are now non-existent".
